

Introducing...

Inventory **MD**TM **RX**

The diagnosis starts by listening to your customers' inventory symptoms and prescribing the appropriate treatment.

Here's how it works

- RX** Customer places a non-binding Annual Blanket Order
- RX** Customer shares "Real Time" usage or forecasts
- RX** SSC manufactures & stocks components
- RX** SSC packages and barcodes components in weekly usage quantities
- RX** SSC Bin Stock delivery or Desktop/Remote usage reconciliation
- RX** SSC generates a weekly Excel report for usage updates and Finished-Goods-Stock
- RX** Customer Benefit - "Real Time" Inventory reduction, tracking and accuracy
